

Room Kit and Inogeni 4KX-PLUS
 For USB Passthrough – with Inogeni at table
 Line drawing

4KX-PLUS INSTALLATION
 THE ADVANTAGE TO PLACING THE INOGENI AT THE TABLE is twofold:
 1) it is not necessary to extend USB
 2) If more than one computer is used for USB Passthrough, the Lightware or other switcher can also be at the table, simplifying wiring.

NOTE: If your Windows laptop has only USB-C, you will need one of these adapters for HDMI and USB-A

Startech 3-IN-1 MULTIPORT ADAPTER p/n CDP2HJUACP2

NOTE: MacBook users – you are accustomed to dongles ☺ One that will work is the Apple USB-C Digital AV Multiport Adapter

Apple USB-C Digital AV Multiport Adapter
