# INOGENI CAMTRACK & CAMTRACK PRO

The Most Flexible Voice-Activated Multi-Camera Ecosystem

**Engaging meetings, simplified**  
Transparent AI tracking, scalable to any room, easy to configure

## 01

### Microphones

#### How it works - Your system in 3 steps

- 1 Select 1 - 8 microphones<sup>1</sup>
  - 2 Select 1 - 12 cameras<sup>2</sup>
  - 3 Add INOGENI's NDI/RTSP converter or USB/HDMI video switching device
  - 4 Select Room PC and controller or laptop
- + \_\_\_\_\_
- 5 Add optional components<sup>3</sup>

## 02

### Cameras

## 05

### Additional options

## 04

### Room PC and controllers

## 03

### Video converter / switcher

<sup>1</sup>: Depending on edition: 1-4 for Standard, 1-8 for Pro  
<sup>2</sup>: Depending on edition: 1-8 for Standard, 1-12 for Pro  
<sup>3</sup>: MXA MUTE button can also be configured as a basic control interface  
Adding a DSP or mute button will reduce the number of available microphones

camera presets.

INOGENI

**CAMTRACK leverages  
camera auto-tracking  
and auto-framing**

**Outside Participant View**  
CAMTRACK delivers a full,  
close-up view to engage  
remote participants.

Multiple camera  
angles per speaker  
for natural camera  
switching

Up to 3 angles per zone

# Seamless and natural camera switching

**CAMTRACK commands the scene**

Crystal-clear PTZ cameras follow the action

**Smart natural transitions**

## Outside Participant View

CAMTRACK delivers a full, close-up view to engage remote participants.

## Seamless USB/HDMI videoconferencing

CAMTRACK automates your AV setups for smooth, dynamic meetings in seconds (3 steps):

### Voice-triggered switching

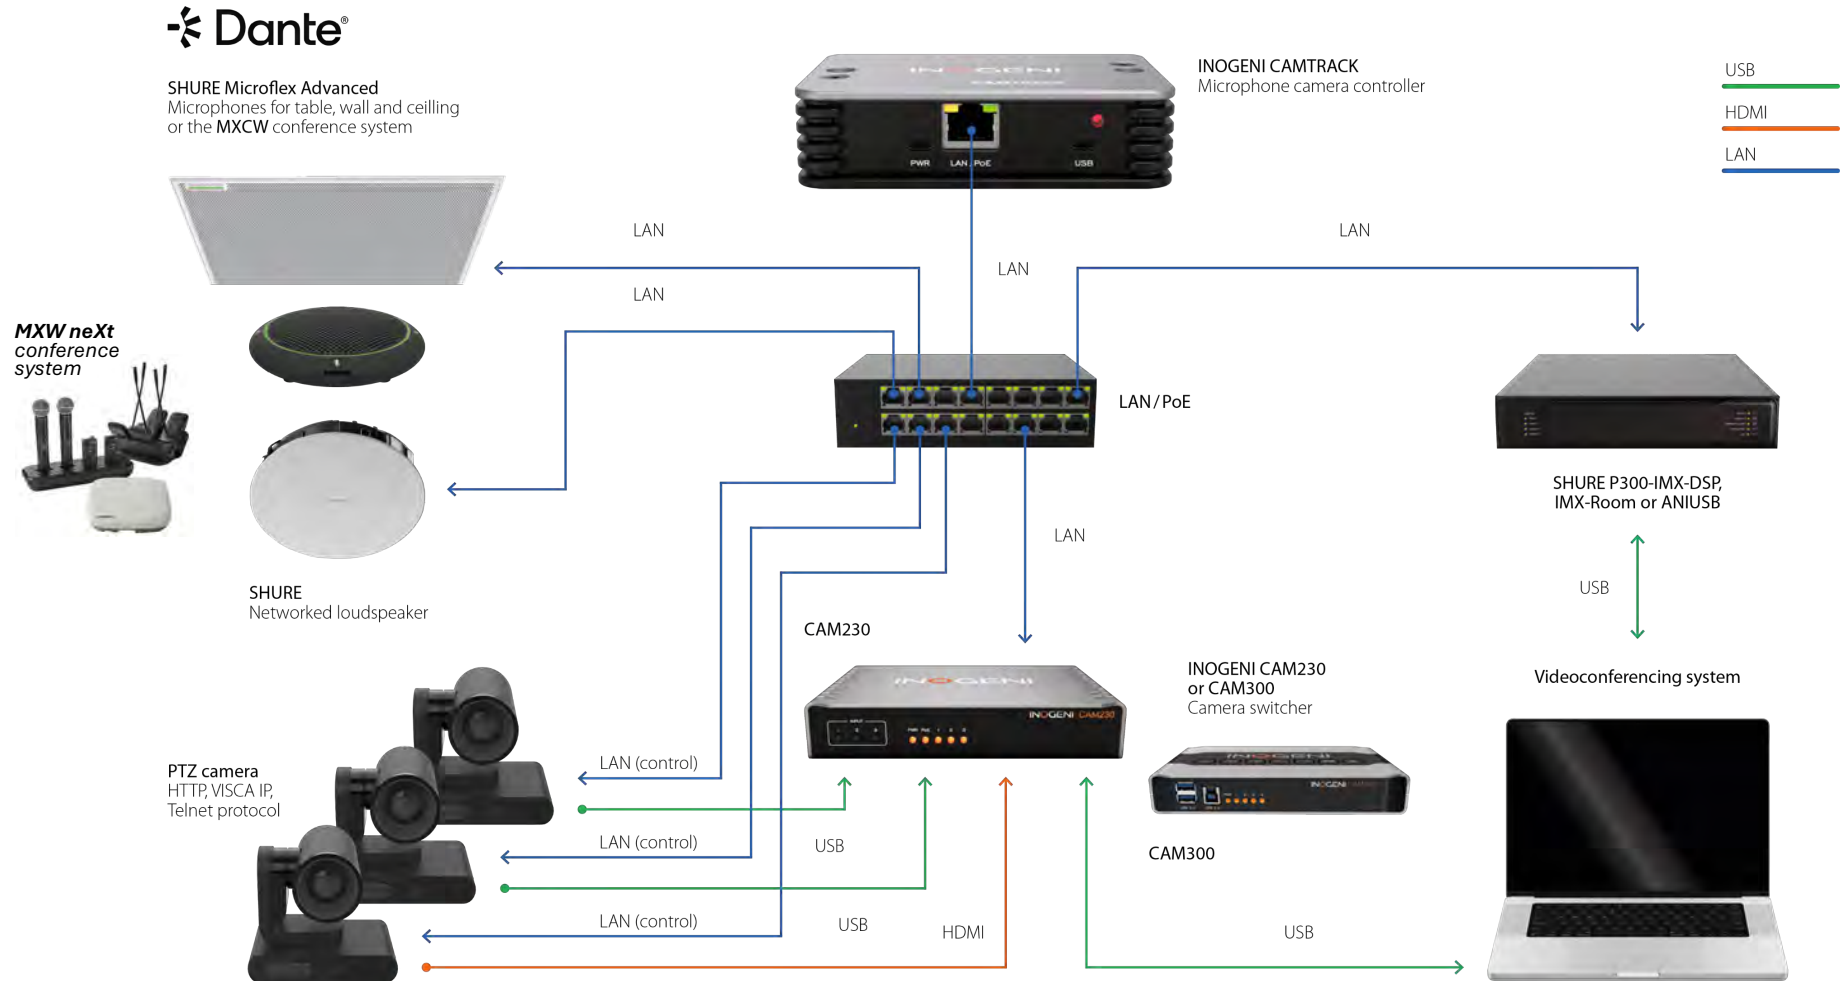

Detects active speaker zones via SHURE microphones

### Automated control

Selects the appropriate PTZ camera, preset, or AI tracking mode.

### Instant feed delivery

INOGENI's switcher/converter routes the video feed directly to USB for Room PCs or videoconferencing systems.

## CAMTRACK SOFTWARE

### Smart voice-activated configuration made easy

#### Guided setup:

An integrated assistant walks you through every step — from audio and camera connections to complete room configuration.

#### Intuitive design:

Easily create and adjust voice-activated camera presets without programming.

#### Comprehensive control:

Manage and fine-tune all elements — microphones, cameras, switchers, and room logic — directly through an intuitive web interface.

#### Fast deployment:

Duplicate and share configurations seamlessly across multiple CAMTRACK devices.

The wizard can be tailored allowing contextual customization of steps and titles. Users can add company-specific guidance or instructions, such as internal support contacts or workflow notes.

## Easy Steps to Configure Your Solution

Channel Table Setup

# Why INOGENI CAMTRACK is the ultimate choice for multi-camera, voice-activated videoconferencing

## Get better engaging collaborative meeting

### CAMTRACK uniquely delivers:

- **Smooth and natural voice-activated switching**
- **Most flexible cameras choices** – Canon, Sony, Panasonic, AVer, and more
- **Broad compatibility** – SHURE, Cameras and ROOMS PCs via INOGENI USB 3.0 switchers
- **Transparent to AI cameras** – Auto-Tracking and Auto-Framing
- **High flexibility and scalability**
  - **CAMTRACK:** Up to 4 microphones and 8 cameras
  - **CAMTRACK PRO:** Up to 8 microphones and 12 cameras
  - **Field upgradeable**
- **Easy configurator setup** – Intuitive wizard and no programming
  - **Simplest installation** – Fewer extensions, faster deployment, and lower total cost of ownership
  - **Room setup flexibility** – Supports up to 10 room configurations per CAMTRACK location
  - **Easy to duplicate** a configuration to other CAMTRACK devices

# ISE location – Booth 2W640

# Q&A

A woman with short dark hair, wearing pink-rimmed glasses, a white collared shirt, and a grey blazer, is looking down at a red smartphone in her hands. She is positioned on the right side of the frame. The background is a complex digital collage. On the left, there's a large, semi-transparent 'Q&A' text. Surrounding the woman and the text are numerous small, overlapping rectangular images of various people and scenes, some appearing to float or be projected. There are also faint, glowing lines and patterns, suggesting a high-tech or data-driven environment. The overall color palette is dominated by blues, greys, and the white of the text and shirt.
