For example: <div>F8:DC:7A:00:80:00 share2u-008000.local</div> Improvements: <ul style="list-style-type: none">• Corrected instability issues. Bug Fixes: <ul style="list-style-type: none">• Corrected compatibility issues with some USB cameras.<ul style="list-style-type: none">○ Bose VB1○ Logitech MX Brio○ Poly P15

KNOWN ISSUES

Here are the known issues for this specific product. These will be corrected throughout the firmware releases.

- **Audio Output Conflict:** When using Line-IN + PC Speaker, only the PC Speaker output is active.
- **Level Controls Behavior:** Volume levels now save automatically and do not revert to previous values when unmuted.
- **Gateway Settings:** The gateway configuration resets to default when gateway is empty in static mode.
